- Interactive learning is facilitated by installing Smart Boards in college.
- Collaborative learning is also facilitated by conducted internal seminars, workshops, industrial visits, study tours etc. Science forum and Literary Forum are established under the leadership of Science Departments and Language departments for diffusing practical knowledge in literature and science and literature among school and college students.
- Students council is established.
- Green audit concept is necessity of the time and lectures on environment based subjects is held.
- As the college is established rural area special programs are held for farmers by Science departments.
- Skill development programmes like Students participation in farming, marketing skills, communication skills are introduced.
- For the upliftment of Pardhi community in the nearby area various programmes are held.
- Visit to Sahra Hiv students school, etc. is held.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the Beginning of the year:

- All activities were conducted as per the academic calendar. Beyond these pre-planned activities, the department associations, clubs and cells were organized various gender sensitization programmes, awareness programmes and extension activities. The awards and rewards achieved by the students in marks, research, sport etc are increased and notable too.

7.3 Give two Best Practices of the institution:

1. Upliftment of Pardhi People in nearby area.
2. Development of Rural People.

7.4 Contribution to environmental awareness / protection:

Rallies, Street Play, Speech on Environment awareness,

Protection, Geography Day, Birth and Death Anniversary of Late Shikshan Maharshi Dnyandeo Mohekar Guruji, as well as eminent nationalist, literary persons and scientists etc.

7.5 Whether environmental audit was conducted?

Yes

No

SWOC Analysis:

A. Strength:

1. One of the well reputed multi-faculty, co-educated college in Taluk, District as well as Marathwada region.
2. The college has a magnificent campus of 22 acres of land in different three fragments. The physical infrastructure facilities – building, laboratories, library with 65,000 books, indoor and outdoor stadium, sports facilities, well equipped gymkhana, computer laboratories, conference hall, canteen, botanical garden, girls' hostel, Network Resource Center room, Wi-Fi, Broadband connection, CCTV cameras etc.
3. Advanced research equipment and facilities are available in Zoology, Botany, Herbal Technology and Geography.
4. All faculty members actively participate in research work; they deliver the invited talk in state/regional level, national level, international level seminars and conferences.
5. More than 60% faculty members are Ph.D. holders.
6. The real Digital India is maintained with the use of ICT classrooms.
7. Well equipped laboratories.
8. The IQAC devises action programmes and implement the same for the welfare of the students. The statutory and non-statutory committees make their significant contribution for the academic and administrative progress of the college.
9. Well Qualified Teaching Staff and non-teaching staff.
10. Result of college is good as compare to university result.
11. The increasing ratio of girls' students.
12. Girls Hostel

B. Weakness:

1. Though the college prospers with all the strength of an institution of global standards, again, due to its geographical area could not attract international students.
2. Most of the students are first generation learners. Hence, the motivation level is very low.
3. Maximum Students from rural Background.
4. Most of the students have to earn with learning.
5. Due to lack of industrial area in the region it is difficult to get practical knowledge and placement becomes rare fact.
6. No autonomy for launching new professional courses

C. Opportunities:

1. Education is skill unattainable to many girls from rural areas. Now a days, due to transport facility, girl students from interior villages are educated, at par with boy students, up to research level.
2. Though situated in a rural atmosphere, technology based ontological tools of teaching, classrooms with smart and interactive boards and syllabus catering to global needs and standards are implemented and practiced.
3. Increasing the number of employable Indian citizen of our area.
4. To make the college as a centre of Excellence for preparation of competitive exams.
5. To come up with new Women empowerment projects.
6. To become a centre of excellence offering education in rural area.

Challenges:

1. To monitor development with rare financial support from government and UGC.
 2. Poor economic conditions of students affected due to Draught condition.
 3. To retain the students from going to other places for higher education. To make MOUs with leading industries for training and placement. To increase the communication skill in English.
 4. Giving job orientation to our traditional courses.
 5. There are ample opportunities to attract students from other states.
 6. Slow but steady industrialization of the region provides better job opportunities and entrepreneurship.
- Inadequate land for further expansion

8. Plans of Institution for Upcoming Academic Year:

- To develop Departmental library at each department.
- Strengthening Student Mentoring System.
- Strengthening Feedback Mechanism.
- Strengthening of alumni association
- Introduction of New job oriented course.
- Commencement of various skill based courses like embroidery and hand weaving.
- To make admission and student payment system online.
- To take up infrastructure development in the form of renovation, construction of classroom building and beautification like construction of garden, etc.
- Celebrating Golden jubilee Year with organizing various programs as Organization of more Alumni meet, organization of various conferences, seminars on quality maintenance.

Feedback from Alumni and Students

The Feedback of alumni was taken by IQAC on 11th October 2015. The questionnaire consisted of very important questions conducive to ite the college as a determinant in the life of alumni. The feedback also helped to evaluate the development of the college.

The major inferences from this feedback survey can be summarized as:

1. Alumni agreed that college was progressing physically and qualitatively at all levels.
2. The courses help them to build their career.
3. Laboratories are well equipped and can be helpful for research activities.
4. Best practices and extension activities keep the faculty in touch with society and farmers nearbay.
5. College faculty, management and students are aware of social problems, environmental issues and works towards improvement in such positions.
6. completion of syllabus on time.
7. Quality language and voice
8. Methodology used to impart theknowledge (Use of smart boards, LCD Projector, charts, teching aids etc.)
9. Accissibility of teacher in and outside the classroom for clarification, counselling career guidance etc.
10. Sincerity and commitment of the teachers
11. He is a well mentor, motivator, guide, facilitator, counsellor for students and society also.

Best Practices

- The Institute of our college has a Green audit committee.
- The institute conducts a green audit of the campus by taking a stock of trees planted.
- The college has maintained a very good green room. Its upkeep is done by the Botany Department.
- In the campus there are nearly about 500 plants and trees are available.
- The college has planted Ashoka trees in the area
- Green room consists of different types of plants like medicinal plants, ornamental plants, fruit developing plants, gymnosperms, Angiosperms etc.
- Project work on different types of plants are made by the Botany students such as medicinal plant.
- In college campus different types of trees are planted.
- In spite of these flowering, ornamental, medicinal plants are also planted.
- Inside corridor different varieties of plants are planted in soil pots and in open space of building trees are planted and a beautiful decorum is maintained.
- Regular care of these plants is taken due to which the campus has become green.
- Biodiversity of plants is observed in our college campus.
- Scientific information is displayed about the trees in the campus.
- The main source of energy is electricity. In addition to the electricity, the college has installed solar water heating system in girls hostel.
- Solar light system is proposed. It will be installed within a very short duration.
- Care is taken to save electricity by taking proper maintenance of the wiring & electrical equipment.
- To conserve energy we use CFL bulbs, fluorescent tubes, refrigerators with power saver remark.
- The computer screens with the LED backlight so that it requires little energy.
- In most of the laboratories the electric equipment & other accessories are installed by the technician to conserve energy to maintain safety.
- In electronic laboratory common voltage source is provided to perform number of student's practicals on a common bench.
- All the constructed buildings have adequate ventilation of natural light hence during day time minimum requirement of energy is there and hence energy is conserved.

1. Title of Practice:- Development of Rural People

Goals:

To make the rural people financially independent.

To convey the scientific ways farming and harvesting.

To reduce the gap between rural and urban living standard. To increase involvement of student in college activities.

The Context:

- The vision, mission and goals of institute is to impart higher education to the students of rural area of this region.
- Most of students of our college come from rural area so their parents could not remain in constant touch with college.
- The college runs the courses like Dairy science, Fishery Science, Horticulture, Herbal Technology, Geography and Home science.
- Many of students are helpless victims of poor family atmosphere. A father is farmer, mother is housewife, land is dry, financial constraints and health problems can shatter the hopes and aspirations of the student.
- Such family background tends to student away from education and it is impossible for them to concentrate on their studies in such atmosphere.
- Some parents are busy in their labour work, so its our job to inform the parents about their opportunities.
- Parents are much worried about their daughters. We can improve their faith in their work, ability, opportunities and future development.
- We want good suggestions from parents to improve our institution.
- Day to day maintenance of academic records.

The Practice:

- As per the above discussed matter, Prof G.U. Gholap is given the task as co-ordinator. Prof G.U. Gholap is the head, Dept of Dairy Science and is originally from farmer's family.
- The person, is selected by considering his qualification and experience as an able to communicate and interact with farmers.
- Prof Gholap communicates these farmers, studies their overall position, and consults with them. He also visits their land, and suggests them to cultivate, harvest and improve financially.
- The co-ordinator calls the meeting of such farmers twice a year.
- The co-ordinator has made students' groups to support these farmers.
- These students are also from farmers' background.
- At any time in year the farmers can contact with faculty.

Evidence of Success:

By providing above system to students, we get overall success in different ways as follows.

- Response of the farmers is very positive.
 - It has become farmers' mentality to work on their farms scientifically.
- Involvement of students in land-related activities is increased.
- Parents are satisfied about institution.
 - We provide and support with various equipment we have, in our laboratory to these farmers time to time.
 - Improvement in teachers is also observed.
 - We are going to develop farmers' consultancy system in a short duration.

Development of students in their academic performance.

- Bridge the gap between college and rural people.

Problems Encountered and Resources Required:

- Some of the farmers from rural area cannot contact the college after the communication also.
- Due to the tight schedule of the semester pattern, teachers have little time to give.
- Farmers frequently change their phone numbers and do not inform the college.
- Due to the draught within the last two years farmers are migrating to Pune or Mumbai to seek jobs.
- Most of the students also after getting admission, migrate to Pune or Mumbai for Company jobs to support their family.

Notes:

• The practice Development of Rural People is a healthy practice. This healthy practice increases overall standard of the area. It forms the closer relation between teacher, farmers and student. Due to this the confidence of farmers goes on increasing that they will attract towards the college and quality education.

The following farmers are benefited from the above practice.

1. Suraj Gapat
2. Rohit Mohekar

Title of the Practice: Innovation of ST Candidates

Goals:

In Kalamb, members of the Pardhi community have been called thieves, bootleggers and moneylenders. While a handful of people from the community do run an illicit liquor and moneylending joint, most others are agricultural and construction workers. They work as labourers in fields or at construction sites. If they really are thieves, would they would not be living like searching for the next meal.

The goal behind this practice is to communicate to the youth of the country the excitements of creative pursuit of higher education, attract talent to study at an early age and thus build the required critical human resource pool for strengthening, with bringing these students into the main stream of the society.

The Context:

- The vision, mission and goals of institute is to impart higher education to ST students of this region.
- Most of students of our college come from rural area so their parents could not remain in constant touch with college.
- Many of students are helpless victims of poor family atmosphere. A father is known as thief in society, mother is housewife, financial constraints and health problems can shatter the hopes and aspirations of the students. They have very poor living conditions. Most of the students even don't have shelter to live in.
- Such family background tends to student away from education and it is impossible for them to concentrate on their studies in such atmosphere.

The Practice:

- As per the above discussed matter, Prof Rathod E.L., Head, Department of Sociology is given the task to work out on this project.
- Prof Rothod runs various schemes and practices to keep in touch with these people.
- He organizes various meetings and camps to get involvement of these people in college activities.
- He also promotes the parents to send their children to schools and get higher education. He also helps them with educational aids, study materials, educational kits, uniforms etc.

Evidence of Success:

By providing above system to students, we get overall success in different ways as follows.

- Response of the ST candidates is very positive.
- It has become the said community's mentality to get education.
- Involvement of students in college has been improving.
- Parents are satisfied about institution.
- Development of students in their academic performance.

Problems Encountered and Resources Required:

- ST candidates especially Pardhi community does not feel comfortable in main stream.
- They feel insecure due to their previous experiences.
- They don't feel that their children could get proper education and come into the main stream.
- Some of the farmers from rural area cannot contact the college after the communication also.
- Most of the parents even don't have mobiles to contact with.
